ASQ-R

**Recessed 2 X 8w Halogen & Nicad Battery
EMERGENCY unit**

GENERAL DESCRIPTION

Designed for Commercial area lighting, the ASQ-R model recessed emergency light packs more power and reliability than any other similar type unit on the market today. With a precision formed photometrically optimized reflector system shielded by a UV stabilized 0.125" thick prismatic lens, the standard two 8 watt halogen lamps provide a strong even punch of light, ideal for corridors and stairwell applications, or anywhere sealed beam directional emergency lighting is not required.

HOUSING

Rugged steel construction features a low profile shallow plenum design providing ease of installation with an attractive die formed powder coated decorative trim bezel available in standard matte white or black. Custom colors and finishes available. (Consult factory) Optional mounting bars (CAD-24) facilitate expedient installation in suspended ceiling.

ILLUMINATION

Driven by two (2) 8 watt bi-pin tungsten halogen lamps, the unit is mounted within a precision formed highly specular Alzak® reflector system with a 0.125" thick UV stabilized prismatic spread lens, the ASQ-R emergency light emits a broad, evenly distributed square pattern unobtainable by normal round recessed luminaries.

ELECTRONICS AND BATTERY

The 100% solid-state switching/charging circuitry is enhanced by field selectable dual 120 or 277 VAC input. Standard maintenance-free Nickel Cadmium batteries available for up to 32 Watts. Available in a 6 or 12V this battery system will provide more than 1-1/2 hours of evenly distributed light. Short circuit, automatic brownout, push to test button, AC ready light, and AC lockout which eliminates the need to disconnect/reconnect the battery at installation, are all standard with this unit. Provides 90 minutes of illumination upon loss of power.

CODE COMPLIANCE

UL 924 Tested and Listed. Meets and or exceeds NFPA, NEC and OSHA illumination standards.

WARRANTY

5 years on housing and electronics with a 7 year pro rated warranty on batteries.
