## LG-8ST-200

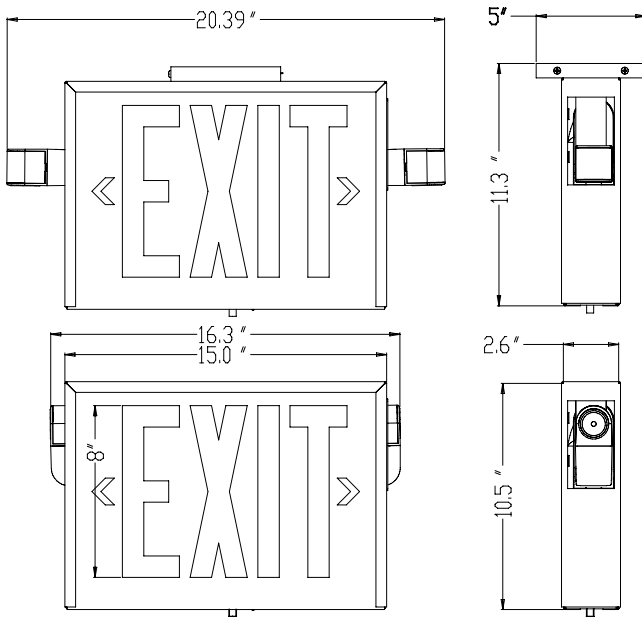

8 INCH STEEL NOBLER SERIES

MR-11 Combination Unit

With Two 7 Watt Halogen Emergency Lights

### DIMENSIONS

### GENERAL DESCRIPTION

The smallest foot print available Combination Unit features all and more of what you expect and demand in a Life Safety product. The sleek shallow height (10.50") will blend nicely into any environment with no worries associated as to whether it will fit above the door or not. The LG-8ST-200 offers a smooth contoured transition from the exit to the two emergency heads while providing the flexibility of back, or canopy mount with an additional exit stencil standard. Emergency heads are designed to be adjusted either forward and/or backwards to provide 360 deg. illumination as a standard. Patent Pending.

### HOUSING

20-gauge steel housing. This unit is available in powder coated White or Black. Special finished such as Titanium and Bronze also available (consult factory with your requirements).

Unit installs in less than 5 minutes and is pre-wired at factory. Directional indicator offers choice of direction on both stencils.

### ILLUMINATION

Two 7 Watt 6V MR11 high-output halogen lamps mounted in precision formed photometrically optimized reflector assemblies exceed illumination required by UL 924. Long lasting high output ALInGaP LED's with the highest performance and least degradation available in the market with a rated life of 10 years plus illuminates the exit face

### ELECTRONICS AND BATTERY

Dual Voltage 120/277 VAC input facilitates the fully automatic Solid State charging system which features (LVD) Low Voltage Disconnect, AC lockout installation, brown out protection, AC indicator LED light with push to test button standard. The maintenance free Lead Calcium battery provides a minimum of 90 minutes of illumination in emergency mode with an average life of 5 years. Optional Nickel Cadmium battery & 220V input also available.

### CODE COMPLIANCE

Tested and Listed to UL 924 for damp location, meets or exceeds NFPA, NEC, and OSHA illumination standard.
