Geo & Oval
Patient Room LED Night Light

SPECIFICATIONS	Patient Room LED Night Light	HNL7

SPECIFICATIONS

Night lighting serves an important purpose in a medical facility. For ambulatory patients, sufficient light must be available to safely navigate from the bed to the restroom at night. Caregivers must see a clear path from hallway to bed and then have adequate light to observe the patient's condition, while minimizing disruption of the patient's sleep. Therefore, intensity and color of the light, as well as fixture placement, must be carefully considered. Both the Geo and Oval offer rugged die cast aluminum housings that meet the standards of the Americans with Disabilities Act (ADA), extending only 1.5" off the wall. Choose from standard warm white or optional amber LEDs.

Faceplate
Die cast aluminum faceplate.

Lens
High-impact, frosted polycarbonate lens.

Source
High output LED board.

Switching
Line voltage switching (by others).

Weight
Geo – approximate shipping weight 1 lbs
Oval – approximate shipping weight 1 lbs

Mounting
Installed to a single gang junction box.

Voltage
MVOLT, 120-277 Volt

Finish
Decorative faux finishes available to coordinate with any decor. Use CC finish option and supply finish chip for matching.

Input Watts
Geo   3 Watts
Oval   3 Watts

Color Quality
>80 CRI

Life Estimate
50,000 hours to 70% lumen maintenance.

Listing
UL Certified to meet US and Canadian standards. Suitable for damp locations.
Warranty
5-year limited warranty. Complete warranty terms located at:
www.acuitybrands.com/resources/terms-and-conditions

NOTE: Actual performance may differ as a result of end-user environment and application.
All values are design or typical values, measured under laboratory conditions at 25 °C.
