ILLUMINATION
- Long lasting, efficient ultra-bright white LED lamp heads.
- 1 watt (8 LEDs x 0.125 watt) per head.
- High-performance chrome-plated metalized reflector and plastic lens for optimal light distribution.
- Adjustable LED lamp heads provide optimal center-to-center spacing. High-lumen option available for increased center-to-center spacing.

ELECTRICAL
- Dual 120/277 voltage.
- Charge rate/power “ON” LED indicator light and push to test switch for mandated code compliance testing.
- 3.6V long-life, maintenance-free, rechargeable NiCd battery.
- Internal solid-state transfer switch automatically connects the internal battery to LED lamp heads for minimum 90-minute emergency illumination.
- Fully automatic solid-state, two-rate charger initiates battery charging to recharge a discharged battery in 24 hours.

HOUSING
- Injection-molded, engineering-grade, 5VA flame retardant, high-impact resistant, thermoplastic in white or black finish.

OPTIONS
- SDT: Self-diagnostic test feature performs monthly, biannually, and annually tests to ensure reliable operation and to meet electrical and life safety codes.
- HL: 12-LED heads (12 LEDs x 0.125 watt) per head provide increased center-to-center spacing.
- SPV: 208/220/240 multi-tap voltage in 50/60Hz.

WARRANTY/LISTING
- Five year warranty on all electronics and housing. Batteries pro-rated for five years.
- UL listed for damp locations. (0°C – 50°C)

**Center-to-Center Spacing Guidelines**

For reference only.

Meets NFPA 101 Requirements for: 10' center-to-center spacing - 3' path of egress 1' from wall - 7 1/2' mounting height.
